

### Overview: Accessing Online Lesson Plans

#### **Course Description:**

Why re-invent the wheel? Use the web to help save you time and effort when planning high quality lesson plans complete with engaging student activities such as projects and worksheets. This workshop introduces you to Internet search tools while helping you understand how and when to use them to find educationally valuable resources. Once found, you will learn book marking techniques designed to help you easily save, organize and re-access the most valuable resources you discover.

#### **Objectives:**

- Review lesson plan basics (structure and purpose)
- Compare “good” vs. “bad” lesson plans
- Discuss buying and selling online lesson plans
- Create bookmarks/favorites
- Access lesson plan databases
- Search by subject area, grade level, etc.

#### **Materials:**

- Internet connected computer
- ClassLink username and password

#### **ISTE-NETS Standards Connection:**

##### 4. Promote and Model Digital Citizenship and Responsibility

Teachers understand local and global societal issues and responsibilities in an evolving digital culture and exhibit legal and ethical behavior in their professional practices. Teachers:

- a) advocate, model, and teach safe, legal, and ethical use of digital information and technology, including respect for copyright, intellectual property, and the appropriate documentation of sources.
- b) address the diverse needs of all learners by using learner-centered strategies providing equitable access to appropriate digital tools and resources.
- c) promote and model digital etiquette and responsible social interactions related to the use of technology and information.
- d) develop and model cultural understanding and global awareness by engaging with colleagues and students of other cultures using digital-age communication and collaboration tools.
